windream at the DIGITAL FUTUREcongress

Getting to the heart of digital documents and processes

On November 8, 2018, the DIGITAL FUTUREcongress (DFC) will take place at Messe Essen and windream will participate with a big fair stand! Together with six co-exhibiting windream partners, we will be at the service of interested visitors for personal consulting. Please visit us at our stand F2 and experience modern solutions for digital document and process management.

From insider tip to industry event

The format of the congress has blossomed from an insider tip to one of the biggest networking events of the ITC industry. The event addresses companies, who want to be specifically informed about the different topics of digitization on one day.

| Imprint..... | 9 |

In the Frankfurt area in particular, the DIGITAL FUTUREcongress has had a large group of fans for many years and convinces both exhibitors and visitors from the branch. Besides the CEBIT, the event is among the largest trade conventions with a large portfolio of offers from all core sectors of digitization, such as CRM, ERP and DMS/ECM.

windream participates with large trade show stand

All interested visitors are cordially invited to visit our trade show stand and have discussions with our experts and inform themselves on the possibilities of electronic document management and digital process management. Let us present you concrete use cases and best practice solutions in an individual presentation and learn how other companies are handling the opportunities arising from digitization.

Six co-exhibitors present their solutions

We are looking forward to welcoming six windream partners as co-exhibitors at our trade show stand: BCT Deutschland GmbH, BSS West GmbH, CPM.DE GmbH, Kodak Alaris Germany GmbH, media-service consulting & solutions GmbH and One Click Solutions GmbH.

Tickets via our online form

Register via the form on our homepage now in order to receive a ticket code for free access to the FUTUREcongress. We are looking forward to your visit!

windream.LIVE at the Allianz Arena

Exclusive location – for ECM consultations at Champions League level

windream.LIVE

Our event series “windream.LIVE“ is making a stopover in Munich. After a hugely successful windream.LIVE event in Potsdam last September,

we would like to invite you to finish our event year with an interesting business event at the most modern German football arena.

Following the motto “Ask the Experts“ we would like to give you the opportunity for a personal consulting concerning all questions regarding electronic document management and process management.

Agenda filled with hot topics and IT experts

Our agenda includes hot topics such as “Compliant Archiving According to the GoBD“, the use of “Digital Workflows for Invoice Management“ or “Smart E-Mail Management“. Together with our partners, our IT experts will present easy ways to get into the world of electronic document management.

As a big finale: a tour trough the Arena

After the final whistle at the Allianz Arena at 4:30 p.m., we would like to invite all participants to an Arena tour – together, we will take a look behind the scenes of this impressive stadium.

Register for free

Register now, for free. We are looking forward to your visit.

Digital Office Conference in Berlin

Get one of 20 free conference tickets

On November 22, we will participate in the Digital Office Conference 2018 as an exhibitor and premium partner. The conference will be hosted by the Bitkom at the CityCube Berlin.

In a practice-oriented manner and irrespective of producers, the advantages of a digital office will be presented. In this context, the focus will be on efficiency and potential for innovation offered by the digitization of business processes.

After all, the digital office is the cockpit of digital transformation: digital processes and the optimized use of resources increase competitiveness. Visitors to the Digital Office Conference 2018 in Berlin will learn how to design their processes in a smart manner and why doing so is a decisive factor for success.

Participants can look forward to a full-day presentation program and the opportunity to exchange information on those developments which are most significant for their own company as well as experience digital solutions live.

Get one of 20 exclusive free tickets

As a premium partner, we offer you the opportunity to get one free ticket for the event. In order to receive the code, complete the form on our website. Better be quick, as only the first 20 registrations will receive a code for a free ticket. We are looking forward to your visit.

Reorganization of the Network Provider Order after Windows 10 Updates

Patch solves potential windream Client problem

After Microsoft stopped the dispatch of the last Windows 10 update, we assume that the corrected update will be available at short notice. For this reason, we would like to point out the following curiosity which may occur after a Windows 10 Update and can result in a problem with windream Client computers:

During a Windows 10 update, the network provider order is changed or providers are removed during the update process. The changing of the so-called "Provider Order" results in the entry for the windream drive no longer standing first in the order, which, in turn, will cause access problems on a windream Client computer. In the "Provider Order", the windream drive should always be first.

To guarantee this status and to avoid problems on the windream Client after a Windows 10 update, we provide the so-called "Provider Patch" for our partners and customers which will solve the described problem.

The patch can be downloaded and directly started via the following link: http://www.windream.com/download/Patches/WM_DriverProviderOrder_Patch_1.exe

For further information and links regarding this patch, please refer to our download portal:

- **windream 6.5**
<http://windream.com/download/Patches/6.5/6.5.0.7>
- **windream 6.0**
<http://windream.com/download/Patches/6.0/6.0.0.8>

Important Note for windream Administrators

Current Windows 10 version no longer installs SMB 1 by default

Due to recent events, we need to point out that the latest version of Windows 10 no longer supports the network protocol "Server Message Block 1" –SMB 1 for short – by default. The protocol is, however, required

for using the windream Share Drive or the server services in the context of the Share Drive.

As SMB 1 is by default not installed in Windows 10 (Fall Creators Update and Windows Server version 1709 and higher), the network protocol needs to be activated manually.

Under the link <https://support.microsoft.com/de-de/help/4034314/smbv1-is-not-installed-by-default-in-windows>, the support database of Microsoft points this fact out. The support pages of Microsoft also provide information on how to activate SMB 1 again, see <https://support.microsoft.com/de-de/help/2696547/how-to-detect-enable-and-disable-smbv1-smbv2-and-smbv3-in-windows-and>.

windream Product Release

Our product management has approved the following product releases:

- windream Web Service 6.5.115.0

Webcast Series Enters the Next Round

On November 12: The windream Rights Manager

In the last episode of our webcast series on the “windream tools”, our partner manager Matthias Bastian will present the windream Rights Manager. The webcast will take place on 4 p.m. on November 12, 2018.

You should not miss this online presentation, as the Rights Manager is an exceedingly efficient tool for managing rights concepts within the windream ECM system. All interested parties are asked to register for this webcast on time, by directly contacting Matthias Bastian via e-mail to m.bastian@windream.com. As always, we are looking forward to your participation.

windream Trainings

Specific windream training sessions in English language will be held on request. For further information, please contact our partner management via partner@windream.com.
